The most valuable thing
you can borrow from us
you never have to pay back.

A lot of things are more valuable than money. An "idea" is one of them. Ideas are what make the world go round. Money just helps set ideas into motion.

At Marine Midland Tinker, we help many customers—both corporate and personal banking customers—with ideas as well as money.

Ideas that help companies free their corporate dollars from long term capital investments through lease financing. Ideas like our corporate payroll systems that

cut operating costs and help you build profits.

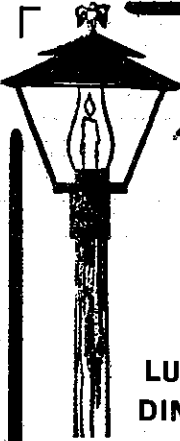

Our personal banking services provide free checking accounts for all people 65 or over. We help others write checks—even if they don't have money in the bank. Our special savings plan helps people to save . . . even if they've never saved before.

If you have a problem, borrow one of our ideas. They're free and designed to help you help yourself.

That's the whole idea behind our ideas. Helping you.
