Moving at the  
Speed of Life

Don't let chronic pain  
slow you down.

The Pain Management Center at Brookhaven Memorial Hospital  
now offers a comprehensive approach to the treatment of chronic pain.

Let our board certified specialists, with extensive training in the treatment of pain, provide you with the solution to your chronic ailments. Don't allow symptoms of neck or back injuries, sciatica, headaches, TMJ, arthritis, osteoporotic/veterbral compression fractures, shingles or circulatory disorders stop you from enjoying life.

A compassionate, and comprehensive evaluation is the first step in determining which treatment is right for your needs.

**TREATMENTS INCLUDE:**

- Implanted pumps to administer pain medications
- Radio-Frequency Rhizotomy • Kyphoplasty
- Epidural Steroid Injections • Facet Injections
- Trigger Point Injections • Nerve Blocks
- Spinal Endoscopy • Laser Disc Decompression
- Neucleoplasty • Spinal Cord Stimulation

If needed, referrals can be arranged with a variety of specialists including: neurologists, neurosurgeons, orthopedists, rheumatologists, physiatrists, psychiatrists and physical therapists.

If you or someone you know suffers from chronic ailments, take the first step in returning to a pain free life. We're ready to help.

Call Brookhaven Memorial Hospital's  
Pain Management Center at 631-687-4100.  
Or learn more about our treatments online at:  
<http://www.BrookhavenHospital.org>

We are proud to announce that Ronit Adler, M.D., Anesthesiologist, Pain Management Specialist has joined the Medical Staff of Brookhaven Memorial Hospital Medical Center.

Voted the No. 1 restaurant overall on LI, as well as No. 1 for Decor – devotees swear it could rival “the Palace of Versailles” – this “extravagant,” “elegant” and “exquisite” “crown jewel” boasts “gorgeous views” of Great South Bay from its “beautiful setting on the water” in Patchogue; indulge in “extraordinary,” “imaginative” New French cuisine “magnificently presented” by an “impeccable” staff; dip into the “kids’ college fund” or “mortgage the house” if you must, but it’s “worth every franc” for such an “incredible dining experience.”

## A NOTE FROM THE PRODUCER

As has become a tradition, welcome to our winter season here at the Patchogue Theatre. This year we have a very exciting show for you. Last February we were busy negotiating with our contacts in the US and Moscow concerning a new *Nutcracker*. During the holidays *The Nutcracker* is performed so many times, most of them just re-creations of what has come before. We wanted to do something different, something even more exciting - so the idea behind *Millennium Nutcracker On Ice* was born.

That was the easy part. Since March, Igor Bobrin and his company of skaters have been working daily in Russia, preparing for what you see today. Routines are rehearsed, and then re-rehearsed. Changes are made throughout the process. Skate blades are sharpened dozens of times. New arrangements of the familiar Tchaikovsky score are written and then recorded. Finally the show is ready for its world premiere. Next year plans are under way for a multi-city US tour, but you saw it here first!

And while we're on the subject of first, Gateway has just signed a contract for *Miss Saigon*. We will be the first production on Long Island, and one of the few organizations licensed to produce *Miss Saigon* since the Broadway and National touring companies. The rest of the summer 2003 schedule is being prepared including *The King and I*, and a few surprises. Season subscribers will be receiving their renewal forms in February. New subscriptions and individual ticket sales will begin in March and April.

Once again, we appreciate your patronage, and look forward to entertaining you for years to come!

Yours truly

Paul Allan

## AN INTERVIEW WITH THE SAMOKHVALOVs

Leading figure skaters of the Moscow Stars on Ice appearing at The Patchogue Theater in "The Millennium Nutcracker"

**Alexander Samokhvalov appears as "The Nutcracker" and Maria Samokhvalova, Alexander's wife appears as "Clara"**

Alexander (Sasha):

We met in 1992. At that time my coach, 2-time Olympic Champion Alexander Zaitsev, left Russia, and I was looking for a new one. It was mentioned that there was a group of figure-skaters where I might get a girl-partner and train together. I came to the stadium and Masha was pointed out to me. She was standing with the other girls talking and laughing (perhaps at me, the newcomer). I was 16 at that time and Masha was 13.

Maria (Masha):

By that time I had been training in this group for 5 years with several partners and had a good deal of experience in pairs skating. Sasha did not have such experience. He appeared in funny red trousers and, besides, he fell down several times while jumping. That was why all the girls were laughing.

Sasha:

I don't know why but it seemed that our new coach got pleasure coaching us. He paid more and more attention to us as a couple. This resulted 5 months later in our winning the All-Union competition and gaining the Number 3 standing in the Junior Combined Team.

Masha:

We worked 6 hours every day including choreographic lessons. Sasha taught me jumping which is difficult for pair skaters and it became our main advantage helping us to "hide" our uncertain performance of pairs elements.

Sasha:

Since that time there have been a lot of successful performances. We spent more and more time together. The joy of success made us closer, friendship became stronger. I felt that I was falling in love with Masha and was very stupid to tell her about it. At the same moment I lost my authority – Masha was only 14 years old. But I paid more and more attention to her and less to our training. Masha got angry and irritable. Under such circumstances we also received a lot of physical and psychic damages and an intrigue of the Sports Federation at the Russian championship also took its toll, so we decided to stop training.

Masha:

At the Russian championship when we deserved at least the 2nd place, we came in 5th and this decision on the part of the judges killed our main ambition which was to participate at the Junior World championship in

## An Interview With The Samokhvalos (continued)

Colorado Springs. It was a heavy psychological blow (now it seems funny but we were children at that time...). We trained for almost a year after that but in the end decided to stop.

Sasha:

It passed a lot of time when we were not doing anything when once we were invited to Bobrin's Ice Theatre. We were shocked with such an invitation – we could never expect it and dream about it. Our first tour with the theatre took place in 1996 in Europe. We performed successfully but the relations became worse and worse. I behaved terrible and was scolding Masha all the time.

Masha:

When we joined the theatre it was after the first rehearsal that we understood that this is the place where we would like to be. We were given roles in a children's performance and we did it with great pleasure.

Sasha:

During this tour the company celebrated the New Year together. I decided to present flowers to Masha when we all

gathered in a restaurant. It was very difficult because we lived in a small village in the mountains and I went to the nearest shop by stopping cars on the road to get a ride. And when I entered the restaurant with flowers in my hands, the situation became obvious: somebody applauded, somebody laughed, somebody joked, and Masha burst into tears and ran away. The theatre divided into two groups: one group was soothing me, the other – Masha.

After that Masha and I did not speak for 3 months. Our second tour was in the USA at Cypress Gardens in Florida. Masha had her 18th birthday there and after we celebrated it, I asked her to marry me. Masha accepted my proposal under one condition – that I call her parents and ask their agreement. There were no problems with it as we have been on friendly terms, so they blessed us by phone.

Among the audience who came to see the theatre there were our fans, Merry and Terry Lou, who came 5-times a week. They helped us with the documents and marriage and also became

our witnesses. We got married on July 9, 1997 and the next six honeymoon months became a present to us on the Atlantic coast in Cypress Gardens with the company we love.

After there have been a lot of wonderful tours and interesting productions with Bobrin's Ice Theatre. This year Masha and I celebrated our 10th year acquaintance and 5-years of marriage. So far, no regrets.

Masha:

We got married in the USA during our tour there. I never thought why it happened so quickly. We came to the USA

as enemies and some time later everything calmed down. There was nobody there who had been closer to me – we had already been acquainted for 5 years by that time. Sasha's insistence and attentive attitude to me did not go unnoticed. I suddenly understood the intent of his kindness and attention. So I did not have any doubts when he proposed.

We have been married for 5 years and have worked with the Moscow Stars on Ice for 6 years. The years have flown by like one day and I think that it is the best proof that we are happy both in our marriage and our work.

# HOW WE MAKE THE ICE

Yontzmat portable ice rinks are state of the art ice rinks utilizing space age materials and solar technology. The Yontz Corporation, headed by Don Yontz and Carl Zahn, and their team of engineers can transform a stage into skatable ice in only 24 hours. The rink is framed using recycled "plastic" lumber forming what resembles a 5-1/2 inch deep water bed frame. Next, a polyethylene plastic liner is placed over one inch thick high density insulation. Yontzmat "coils" (which are constructed from HiTemp solar collector material) are laid on top of the plastic liner and connected to one end of the frame. This end of the frame has piping which will pump 65 gallons per minute of antifreeze through the paneled coils at 5 degrees

Fahrenheit. The antifreeze is chilled by a 60 HP unit which is parked outside the theater. After the rink is down, it is continuously watered to build the layers of ice. The entire installation takes only 4 hours and the ice builds to skating thickness in only 20 hours. When the fun is over, the entire rink is removed in 4 hours or less by a team of 12 people. Gateway utilizes only environmentally friendly antifreeze in the coolant system.

## THE ICE RINK

1. "Water bed frame" is assembled and refrigeration tubes running through black rubber mats are put in place.
2. Larger pipes connect grid to refrigeration unit.
3. Coolant circulates through tubing, ice cubes are added to quicken freezing.
4. Water is sprayed every hour for about 18 hours, layering the ice.
